NEW OWNERSHIP: “We support the Jaguar Driver, Collector, and Enthusiast!”

“My passion has been and always will be the preservation, restoration, and enjoyment of the Jaguar automobile and its owners!” a direct quote from Clive Collins, the new owner of XKS MOTORSPORT, formerly XK’s Unlimited in San Luis Obispo California. Clive is a former Londoner who has a driving passion to offer Jaguar owners his many years of Jaguar ownership and restoration expertise. His purchase of this fabled restoration shop is a steppingstone for his unique passion to preserve and restore these wonderful examples of automobile sculpture.

His mission is to offer choices and support to those Jaguar owners who have been loyal patrons or are new to the Jaguar family. Choices in how to restore or preserve their automobile. What steps to take to evaluate and determine the steps needed to revive a family heirloom, a father’s pride and joy, or an old friend that needs some care. Restoring a barn-fine, or a much-tattered example, to bring it back to glory requires commitment and budget, these issues are fully discussed in the evaluation process that Clive and his technicians discuss with the owner.

“On a daily basis I am fully involved in the evaluation process with the client and technicians. We are deliberate in our steps of restoration and preservation. One size does not fit all, each automobile is unique as its owner, we respect that element and support their

ultimate goals regarding the final product.” Clive stated, “XKS MOTORSPORT is here to provide the customer 175 years of technician skills, craftsmanship, and organizational expertise in Jaguar restoration, preservation, and performance.” Clive believes that to produce the quality that has become the standard in the industry, internal control and work done in-house results in less mistakes and produces the expected results. This includes the upholstery, mechanical, body-paint, electrical, brakes, machining, inventory, transmission and running gear, suspension, and final reassembly.

“I make a point of inspecting and driving every Jaguar that we touch. I am the final inspection before we call the customer. Each of my technicians and craftsman sign-off on their respective part in the restoration or preservation process, this includes even automobiles that have come into the shop for routine service. We are serious about our higher standards.” Said Clive.

If you are thinking about having your Jaguar refreshed, preserved, or restored consider XKS MOTORSPORT as one of your preferred choices. If you want to have a reliable driver or show car, consider XKS MOTORSPORT. If you want to enjoy driving your Jaguar every day or every weekend, chose XKS MOTORSPORT.

Clive Collins invites you to come to XKS MOTORSPORT in San Luis Obispo California, to see for yourself the quality restorations, the professionalism of the staff, and the commitment to excellence, to you, the Jaguar Driver. Look online at our website, www.xksmotorsport.com, or call **Clive Collins directly, (805) 594-1585**, he’s more than happy to discuss your questions and plans about your Jaguar Automobile.
